

Permanent-Electro Magnetic Grinding System

FEATURES:

- Longitudinal and Transverse Pole configurations
- Fine Pole or Standard Pole versions
- Demagnetizing option
- Any size chuck can be manufactured
- Variable holding force
- Permanent and Permanent-Electro Magnetic Technologies
- All Metal (Steel & Brass) surface
- 3-year warranty

The DocMagnet Permanent-Electro Grinding Magnet only uses electrical power to turn the magnet on and off. Electrical power is removed once the unit is turned on making it a permanent magnet until the power is applied and the unit is turned off. The unit is therefore failsafe in the event of a power outage. The system does not require power when it is on means there is no heat buildup ensuring no deformation in the workpiece providing a high degree of precision grinding
