

Manual Magnetic Lifters

DocMagnet Permanent Magnetic Lifters are both powerful and lightweight.

Utilizing the latest rare-earth magnet materials, these units have everlasting force that make them suitable for a multitude of operations.

Four standard lifting magnet sizes are available from 250lb to 2000lb Safe Working Loads.

Each unit must pass a series of stringent performance tests which exceed ASME guidelines and which are designed to provide utmost safety and ease of use to the operator.

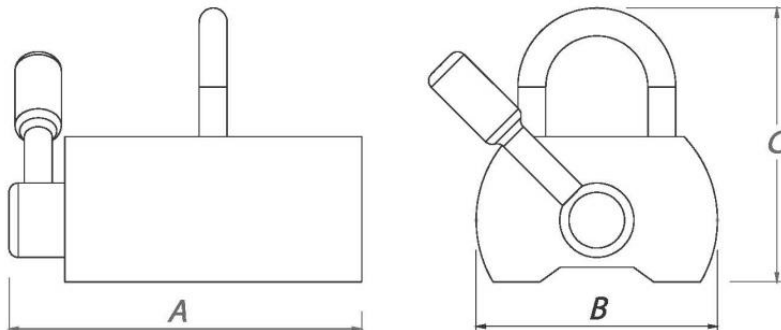

The lever moves just 90 degrees from off-on and a “test” position midway allows the operator to undertake a trial lift on questionable loads.

DocMagnet Engineers can provide custom pole shoes for special applications.

DocMagnet

Model Type	SWL 	SWL 	Length “A”	Width “B”	Height “C”	Weight (LBS)
DM-PL-250	250	N/A	6.500”	5.250”	4.000”	10
DM-PL-500	500	250	6.500”	5.250”	6.000”	20
DM-PL-1000	1000	500	6.500”	5.250”	10.000”	38
DM-PL-2000	2000	1000	6.500”	5.250”	18.000”	80

A 3-year materials and labor warranty, as well as a performance guarantee, is offered with these products.
